

[COVID-19 Resources](#)

Maintained by UMSL-MIMH Addiction Science team

***Partners: This document is public - please feel free to share**

The COVID-19 pandemic is rapidly changing, with new information and guidance emerging hourly. We do know that people who use drugs and/or are in treatment or early recovery may be particularly vulnerable - both to the virus itself and the emotional toll of isolation - as are many of you who are in clinical positions on the front lines.

Below is a compilation of what are hopefully helpful summary points, links, and resources in the areas noted below. Of course, this information could change daily!

If you and your teams have additional suggestions for how we can collectively mitigate risk and decrease danger, please share with this group. We are all in this together.

Category	Resource	Description
General Health	WHO: How to protect yourself against COVID-19	Youtube video from the World Health Organization that talks about how to protect yourself against COVID-19 (1 min 30 sec).
General Health	Missouri's COVID-19 website	The Missouri Department of Health and Senior Services (DHSS) activated a statewide public hotline for citizens or providers needing guidance regarding the COVID-19. The hotline is 877.435.8411. The hotline is operated by medical professionals and is available 24 hours a day, 7 days a week.
General Health	CDC Coronavirus Disease 2019 (COVID-19) Print Materials	This link provides PDFs of posters and materials that can be distributed electronically and printed.
Tracker	John Hopkins Coronavirus Resource Center	Interactive map of global COVID-19 cases from John Hopkins University & Medicine
First responder	CDC: Interim Guidance for Emergency Medical Services (EMS) Systems and 911 Public Safety Answering Points (PSAPs) for COVID-19 in the United States	This guidance applies to all first responders, including law enforcement, fire services, emergency medical services, and emergency management officials, who anticipate close contact with persons with confirmed or possible COVID-19 in the course of their work.
First responder	CDC: What Law Enforcement Personnel Need to Know about Coronavirus Disease 2019 (COVID-19)	Information about COVID-19 for Law Enforcement Personnel Click here for PDF version
First responder	COVID-19 Law Enforcement Virtual Briefing	Time: Mar 19, 2020 01:00 PM in Eastern Time (US and Canada) The National Police Foundation (NPF), Major Cities Chiefs Association (MCCA) and the Police Executive Research Forum (PERF) are collaborating together to provide a virtual briefing for law enforcement executives from the

		<p>Centers for Disease Control’s (CDC’s) National Institute for Occupational Safety and Health (NIOSH) and Public Health Service (PHS).</p> <p>This virtual briefing will be conducted via online conference and will feature medical officers from NIOSH, remarks by law enforcement executives, and a question and answer period. The virtual conference will be recorded and made available for those who cannot participate at the time of the event.</p> <p>For questions about the event, please contact: info@policefoundation.org</p>
Harm reduction	COVID-19 Guidance for People Who Use Drugs and Harm Reduction Programs	<p>Guidance for people who use drugs and harm reduction programs during COVID19. These resources were created by the Harm Reduction Coalition in collaboration with Higher Ground Harm Reduction, Reynolds Health Strategies, and Vital Strategies.</p> <p>Click here for PDF on Syringe Services and Harm Reduction Provider Operations During the COVID-19 Outbreak</p> <p>Click here for PDF on Safer Drug Use During the COVID-19 Outbreak</p>
Harm reduction	Never Use Alone	<p>Never using alone can be difficult during isolation/quarantine. If you do, visit Never Use Alone first <u>and</u> call: 800-484-3731 – they will stay on the phone with you while you use and if you’re unresponsive they will call 911 (and you will be legally protected by Missouri’s Good Samaritan law)</p> <p>If you live in a rural area and need naloxone, contact https://nextdistro.org/ and some can be mailed to you</p>
Harm reduction	Coronavirus and Harm Reduction	<p>Advice about what can be done to reduce risk of Coronavirus for people who use drugs. From US Harm Reduction Coalition, Crew2000, Russell Newcombe (@TheNewImpostor), and @drugsmeter</p>
Harm reduction	Harm Reduction Coalition for virtual office hours to ask questions about the impact	<p>Topic: Harm Reduction, COVID-19 and People Who Use Drugs: Office Hours with Harm Reduction Coalition</p>

	of COVID-19 on harm reduction programs, syringe service programs, or outreach work for people who use drugs, sex workers, and people vulnerable to structural violence	Description: We answer any and all of your questions about COVID-19, harm reduction programs, syringe service programs, outreach work and medical questions about COVID-19 and drug use/sex work. Please share any questions you have in the registration. Additional questions can be sent to covid19@harmreduction.org Time: Mar 18, 2020 12:30 PM in Pacific Time (US and Canada)
Housing/ Homeless- ness	National Health Care for the Homeless Council: COVID-19 Resources	This site has dozens of very helpful links, FAQs, example protocols, and fliers to print for your waiting areas (“Cover your Cough” pdf, etc).
Housing/ Homeless- ness	COVID-19 ("Coronavirus") Information and Resources from the US Department of Housing and Urban Development	
Housing/ Homeless- ness	Homelessness Assistance Programs: Disease Risks and Homelessness	
Housing/ Homeless- ness	CDC: Interim Guidance for Homeless Shelters	This provides guidance to larger facilities (transitional housing, permanent supportive housing, emergency shelters, SUD treatment centers, etc.), in preparation for, and in the event of, an occurrence of COVID-19.
Housing/ Homeless- ness	CDC: Preventing the Spread of Coronavirus Disease 2019 in Homes and Residential Communities	
Homeless- ness	Infectious Disease Toolkit for Continuums of Care: Preventing & Managing the	Document on Street Outreach safety: During an infectious disease outbreak, every worker doing outreach activities with clients should carry the following supplies (per visit)

	Spread of Infectious Disease for People Experiencing Homelessness	<ul style="list-style-type: none"> ▶ Two pairs of disposable rubber gloves ▶ Two pairs of non-latex, puncture-proof gloves ▶ Two N95 Respirators ▶ Two pairs of goggles ▶ One bottle of personal hand sanitizer ▶ 10 moist (preferably alcohol-soaked) hand wipes ▶ Insect-repellent wipes
Treatment	Drug Enforcement Administrations (DEA), Diversion Control Division: COVID-19 Information Page	New guidance issued today from the DEA states the in-person evaluation visit with a prescribing provider is no longer required, due to the declaration of a public health emergency in the U.S. This is most applicable to those of you wanting to deliver buprenorphine treatment via telemedicine platforms only -- this is now okay to do without an in-person visit. Note the language specifies the service is delivered through 'audio-visual' communication (not 'audio' only, i.e., phone call), meaning they want a webcam or phone camera involved.
Treatment	Notification of Enforcement Discretion for telehealth remote communications during the COVID-19 nationwide public health emergency	no need to comply with HIPAA - can use day to day communication devices)
Treatment	SAMHSA newly-released guidance on Opioid Treatment Programs (methadone clinics)	<p>Main points:</p> <ul style="list-style-type: none"> - Give more take-home doses if at all possible – both to reduce transmission and to prepare for decreased access in the future - Utilize telehealth for counseling - Create/refine your disaster plan for alternative dosing sites, decreased staff, etc. - IF PATIENT IS QUARANTINED/IN ISOLATION: <ul style="list-style-type: none"> - Identify a trustworthy, patient designated, uninfected 3rd party, i.e. family member, neighbor, to deliver the medications using

		<p>the OTP’s established chain of custody protocol for take home medication</p> <ul style="list-style-type: none"> - If a trustworthy 3rd party is not available or unable to come to the OTP, then the OTP should prepare a “doorstep” delivery of take home medications. Any medication taken out of the OTP must be in an approved lock box.
Treatment	SAMSHA: Opioid Treatment Program (OTP) Guidance	<p>Opioid Treatment Program (OTP) Guidance from SAMHSA. SAMHSA recognizes the evolving issues surrounding COVID-19 and the emerging needs OTPs continue to face. SAMHSA affirms its commitment to supporting OTPs in any way possible during this time. As such, we are expanding our previous guidance to provide increased flexibility.</p> <p>FOR ALL STATES WITH DECLARED STATES OF EMERGENCY The state may request blanket exceptions for all stable patients in an OTP to receive 28 days of Take-Home doses of the patient’s medication for opioid use disorder. The state may request up to 14 days of Take-Home medication for those patients who are less stable but who the OTP believes can safely handle this level of Take-Home medication.</p> <p>FOR STATES WITHOUT A DECLARED EMERGENCY Each OTP can provide a blanket exemption request for its clinic per the guidance above (i.e., up to 28 days for stable patients and up to 15 days for less stable patients). These requests do not have to be submitted on a per-patient basis. Programs and states should use appropriate clinical judgment and existing procedures to identify stable patients. Please note an increased medication supply will likely accompany these requests. Therefore OTPs and states must ensure that there is enough medication ordered and on hand to meet patient needs.</p>
Treatment	CA-BRIDGE COVID-19 National Emergency Response	<p>Main categories:</p> <ul style="list-style-type: none"> ● Keeping patients and providers safe (e.g., minimize in person visits, max Rxs)

		<ul style="list-style-type: none"> ● Keeping Substance Use Navigators safe from infection (e.g., not physically present in clinical spaces) ● Caring for people on buprenorphine or methadone who are quarantined/isolated/high-risk ● Reducing harm for people who use drugs (e.g., drug use hygiene)
Treatment	SAMHSA: Disaster Planning Handbook for Behavioral Health Treatment Programs	This Technical Assistance Publication (TAP), Disaster Planning Handbook for Behavioral Health Treatment Programs, provides guidance, and the underlying rationale, for management and staff as they work together to create a comprehensive, scalable, and flexible disaster plan. This resource can be used by management and the program’s disaster planning team as they develop or update program processes, procedures, and written reference tools that support a rapid and effective response when a disaster occurs.
Treatment	MoHealthNet Division Revised HOT TIP on TELEHEALTH	<p>The MO HealthNet Division (MHD) is responding to "COVID-19"..</p> <p>MO HealthNet covers Telehealth services. MO HealthNet allows licensed health care providers enrolled with MO HealthNet to provide telehealth services if the services are within the scope of practice for which the health care providers are licensed. The services must be provided with the same standard of care as services provided in person.</p> <p>Telehealth services may be provided to a MHD participant, while at home, using their telephone. The originating site facility fee cannot be billed to MO HealthNet when the originating site is the participant’s home.</p> <p>There is not a separate telehealth fee schedule. Reimbursement to health care providers delivering the medical service at the distant site is equal to the current fee schedule amount for the service provided.</p>

		<p>Please find information regarding Telehealth billing and reimbursement here: https://dss.mo.gov/mhd/providers/pdf/bulletin41-20-2018.pdf PDF Document. You can also view the Missouri Telehealth law here: 191.1145, 191.1146, 208.670, and 208.677.</p> <p>During this event, MO HealthNet is waiving the requirement that physicians must have an established relationship with the patient before providing services via telehealth. MHD will also waive the co-payment for any services provided by means of Telehealth, during this event.</p> <p>This Hot Tip also applies to providers that are contracted with the Managed Care Organizations.</p>
Healthcare	COVID-19: Potential Implications for Individuals with Substance Use Disorders	Blog discussing how COVID-19 could impact those who use drugs released by the NIH National Institute on Drug Abuse
